

LV2000 CIRCULAR

The LV2000 is a newly developed, next generation of long lasting surface mounted LED circular illuminators. This unit is fully dimmable from 100% to 0% and has a flicker free and high frequency operation which allows photography and viewing through CCD cameras. The unit's 9 extreme output LED array is Energy Star compliant, with the exclusive replaceable LED array. The LV2000 is constructed to be ESD safe like the FL1000 and FV1000. The LV2000 replaced the LED LV1000.

Features

- Replaces the LV1000
- ESD construction
- Dimmable intensity from 100% to 0%
- Instant on with Zero flicker
- Energy Star compliant
- Exclusive Replaceable LED array
- 2.35" inner ring diameter
- 100-240v; 50-60Hz
- Made in the USA
